

## Project Overview

As of April 30, 2012

Lockbourne Road at Livingston Avenue

## Livingston Avenue at Lockbourne Road Intersection Improvements

**Description and Benefits:** Project consists of adding a left-turn lane from Lockbourne Road to Livingston Avenue and a westbound, left-turn lane from Livingston Avenue to Lockbourne Road. The completed project will add capacity, reduce congestion and improve safety.

### Status:

Construction is anticipated to start in summer 2012.

### Costs:

Design	\$100,000
Construction	\$600,000

### Contact Information:

Project Manager for design: Carl Walters, P.E., tel. (614) 645-7858

**Designer:** Dynotec, Inc.

**Construction Contractor:** TBD.
